

Ferrofluids-II: understanding ferrofluids using theory and simulations.

Joan J. Cerdà

9th November 2009

Ferrofluids are nowadays broadly used in many technological applications. The present talk is intended to be the continuation of the introduction to the topic of ferrofluids as well as to the research the ICP is doing in such field. (<http://www.ica1.uni-stuttgart.de/icp/Ferrofluids>).
